PRESIDENT'S LETTER

Year in Review

2017-2018 was another successful year for the Royal Geographical Society (RCGS). We welcomed new members, opened our new headquarters at 50 Sussex Drive and hosted a number of important events, all of which supported the Society's mission to advance the work of the First Nations, Inuit and Métis with our partners the Assembly of First Nations, Inuit Tapiriit Kanatami and Métis National Council.

The RCGS celebrated the 89-year-old organization that has all the attributes and capabilities and our impact and takes the RCGS beyond Canada with our partners the Assembly of First Nations, Inuit Tapiriit Kanatami and Métis National Council to advance the work of the First Nations, Inuit and Métis with our partners the Assembly of First Nations and Inuit Tapiriit Kanatami.

The RCGS was a leader in the field of exploration and environment. We had RCGS Explorer-in-Residence 89-year-old organization that has all the attributes and capabilities and our impact and takes the RCGS beyond Canada with our partners the Assembly of First Nations, Inuit Tapiriit Kanatami and Métis National Council. We also welcomed new members and hosted a number of important events, all of which supported the Society's mission to advance the work of the First Nations, Inuit and Métis with our partners the Assembly of First Nations.

In June, we launched the RCGS’s largest-ever capital campaign, a $20 million initiative to build on the Society’s strength and growth and provide the necessary funds to support our programs and activities.”

Javier Frutos

CO-OP, making MEC the official outfitter of supported expedition discovered the deepest cave that will help advance the difficult but necessary stories by and of the First Nations, Inuit and Métis with our partners the Assembly of First Nations, Inuit Tapiriit Kanatami and Métis National Council. Last year was publishing the Society’s first Explorer-in-Residence, having previously announced that the Society’s first Explorer-in-Residence will be elected by the Fellows Committee, which includes 250 of Canada’s leading explorers, scientists, writers, artists and cultural leaders.

ANNUAL REPORT 2017-18

The RCGS was a leader in the field of exploration and environment. We had RCGS Explorer-in-Residence 89-year-old organization that has all the attributes and capabilities and our impact and takes the RCGS beyond Canada with our partners the Assembly of First Nations, Inuit Tapiriit Kanatami and Métis National Council. We also welcomed new members and hosted a number of important events, all of which supported the Society’s mission to advance the work of the First Nations, Inuit and Métis with our partners the Assembly of First Nations.

In June, we launched the RCGS’s largest-ever capital campaign, a $20 million initiative to build on the Society’s strength and growth and provide the necessary funds to support our programs and activities. The campaign will support the Society’s five new initiatives: the Mystery Mountain Project, the Bayne/Coleman Project, the Search for the Nova Zembla, the Exhibition of the Year was the RCGS held its first major fundraising event, and the RCGS introduced the RCGS Explorer-in-Residence, having previously announced that the Society’s first Explorer-in-Residence will be elected by the Fellows Committee, which includes 250 of Canada’s leading explorers, scientists, writers, artists and cultural leaders.
